Audit Performed by: Tushar Kajale

Phase I Testing Dates: 6th January 2025 – 17th January 2025

Revalidation Testing Date: 23rd January 2025

Report Issuing Date: 23rd January 2025

Conclusion: To the extent verified, in the environment provided to us, the Web Application appears to be free from OWASP Top 10 2021 Vulnerabilities and other security benchmarks and appears to be safe for hosting.

Recommendations:-

1. Website may be considered safe for hosting with read only permission.
2. SSL deployment is suggested on production website for further enhancing security.
3. Web Server and OS Level hardening need to be in place for the production server.

Our opinion is based on the detailed reports already submitted and is valid as on the date on which the assessment was carried out and is based on the information and the website contents made available for the audit. Projection of any conclusions based on our findings for future periods is subject to the risk that the validity of such conclusions may be altered because of changes made to the website or system or infrastructure. With the view of a constantly changing threat landscape and attack vectors and emergence of new vulnerabilities no website can be 100% secure despite conducting security/penetration testing. ANB nor its employees shall at any point be liable for any loss or damage arising from reliance on this report.
